Biax<sup>™</sup> T/E LongLast<sup>™</sup> 4pin with Amalgam, External Starter Req. F26W TBX/T4/840/A/4P TU 93105903

## **Product information**

Ultra compact energy saving CFL lamps with triple-tube design give an ideal light source for small fixtures and downlighters. Biax<sup>™</sup> T lamps allow more compact fixture designs with the same lumen output as Biax<sup>™</sup> D lamps. They can also be used to deliver higher lumen output from existing designs. The Biax<sup>™</sup> T & T/E lamps are electrically interchangeable with Biax<sup>™</sup> D and D/E lamps. They are available in 13, 18, 26, 32 and 42W. Light output ranges between 900 and 3200 lumens. Biax<sup>™</sup> T/E lamps with a 4-pin electrical connection and without an internal starter are designed for high-frequency electronic ballasts. The use of separate electronic ballasts makes them suitable for almost every kind of energy supply: high and low voltages, accumulators, batteries, solar cells and systems that can be dimmed. Triple biaxial tubes
